King's Cross
London's Creative Hub

Kings Place is a modern and purpose built venue, in the heart of the rejuvenated King's Cross. The venue boasts an enviable location, overlooking the picturesque Regent's Canal.

King's Cross is rapidly becoming a destination for tech, creative and music enterprises with increasing numbers of international organisations moving their headquarters to the area.

With an emerging new foodie scene, high-profile retail brands and excellent transport connections – both national and international – it's the place to be right now and the place to hold your next event.

Within 1 mile of King's Cross Station:
- 20 cultural institutions
- 21 museums and galleries
- 29 libraries and archives
- Over 50 hotels
- Over 200 restaurants

FANTASTIC TRANSPORT CONNECTIONS

Kings Place boasts the highest BREEAM operational sustainability rating for property management ever accomplished in the UK. The building was planned as an environmentally sustainable development encompassing the below in the venue design:

- The wavy glass front façade is a key contributor to the building's good environmental performance.
- The oak wood in Hall One is made from sustainable wood sourced from a single tree that was naturally felled. Saplings were planted to replace this tree.
- An area of ‘green’ roof enhances the ecology of the scheme and encourages bird and invertebrate species.

We operate a waste reduction strategy. All our waste, including food, is either recycled or goes to refuse-derived fuel, anaerobic digestion or waste recovery, meaning 100% is diverted from landfill. Bamboo and palm plates are used for all hot food station events. These are compostable and can be disposed of with food waste.
Kings Place’s range of event spaces spread throughout three immaculate floors. From the waterside Battlebridge Room on the ground floor down to the breathtaking Hall One on the concert level, all our rooms and spaces are easily accessible and clearly signposted within the building for the ease of your delegates.
